

Borough of Barnegat Light
PO Box 576
Barnegat Light, NJ 08006

Dear Barnegat Light Homeowner,

It has come to our attention that there have been some issues regarding parking in Barnegat Light. Due to the popularity of our beaches and the sheer number of cars parked on the side streets during the summer months we felt it necessary to address the parking codes in Barnegat Light with regard to driveways and the permissible frontage allowed for driveway access.

Chapter 168
Article II
Driveways

168-17. Driveway Specifications

Each lot as described on the municipal tax map upon which a dwelling or building exists shall be permitted to have a driveway for access to the adjacent street, which must be a minimum of 10 feet and a maximum of 20 feet wide.

168-18. Driveway designation.

Where curb cuts and/or concrete driveway aprons do not exist, a property owner may identify a section of the property frontage as the driveway, in conformance with the size limitations set forth herein. Such designation may be made by yellow paint along the frontage, railroad ties, distinct driveway surfacing or other clearly identifiable manner.

By way of explanation please understand that per the above statute you may not claim your entire home frontage as a driveway and we ask that you designate the minimum or maximum set forth in Chapter 168 for access to your home. If you choose to not designate a driveway please understand that a portion of your frontage may be used for on street parking and the individual parking there may not be aware of the regulations regarding driveways. It is our hope that by addressing this we may prevent conflicts from arising going forward

If you have any questions or would like assistance with marking out your driveway please contact the Borough of Barnegat Light at 609-494-9196.

We thank you for your consideration in this matter and wish you all the best in 2016.
